Our Company hired Andrew Quiat to help us collect a debt totaling roughly three million dollars. The debtors were four individuals and their limited liability company. They lived in different states.

Over the last three years, from October, 2007, through the present, Andrew Quiat has relentlessly pursued these parties, and the relatives to which they fraudulently transferred their assets.

Andrew Quiat knows how to use the tools in the collection toolbox better than anyone. He is not awed or intimidated by the opposition. Instead, to mix my metaphor, he gradually throws constrictor coils around the prey (debtors).

We have learned that collection work does take time and patience.

Most important are the results achieved by Andrew Quiat. Primarily through his efforts, we have recovered all of our initial loan amount which we extended to these scumbags. Andrew Quiat is, first and foremost, results oriented. By that I mean, we have our money back, and have been able to meet our financial responsibilities, as a direct result of Andrew Quiat's efforts.

Sincerely,

Steven W. Hickox  
President
